**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 10, 2009 has been entered.

***Information Disclosure Statement***

2. The information disclosure statements submitted on September 11, 2008 and February 10, 2009 were in compliance with the provisions of 37 CFR 1.97 and 37 CFR 1.98. The statements were considered. Signed copies of form 1449 are enclosed herewith.

***Response to Amendment***

3. The amendments to the claims have been fully considered, however, they are not successful in overcoming the 35 USC 103 rejection which is maintained. Applicant's arguments have been noted. However, they are not persuasive in overcoming the rejection. It is maintained that based on structural similarity, the prior art nitric oxide synthase inhibitor makes the instantly claimed compound obvious. One of ordinary skill would have a "reasonable" expectation of producing an additional NOS inhibitor by preparing a positional isomer. Applicant is invited to file a declaration showing unexpected results in order to overcome this ground of rejection.
